

**Dear *digits* Teacher:**

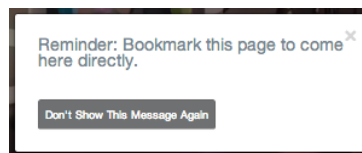

*digits* is in the process of shifting to a new learning management platform called Realize. This change only impacts schools that are going to start using *digits* for the first time in the 2014-2015 school year. Schools that are already using *digits* will continue using *digits* as is, on the SuccessNet Plus learning management platform. (For current users such as yourself, *digits* will shift to the new Realize platform for the 2015-2016 school year - more details will be available to you as we get closer to that date.)

In order to ensure that your students are accessing *digits* on the right learning management platform, they will need to use the correct corresponding *MyMathUniverse.com/digits* page. When your students log in to *myMathUniverse.com/digits* next, they will be prompted with the following message:

1. Have your students click the Enter button on the left to log in to *digits* on SuccessNet Plus.

2. Encourage students to bookmark their *digits* MyMathUniverse home page for the SuccessNet Plus platform:  
[mymathuniverse.com/digitsSNP](http://mymathuniverse.com/digitsSNP)

\*Note: Bookmarking works slightly differently across internet browsers. If necessary, use a web search tool, such as Google, to find out how to bookmark pages for the browser in use at your school.
