Pearson Literature for Florida without CCSS Now Available on Pearson Realize

Attention Florida Teachers:

To meet the state requirements of removing references to the Common Core State Standards (CCSS) in the digital Student and Teacher's Edition, we have developed a version of the program "*Pearson Literature*" that does not include "Common Core" labeling and references in the Teacher and Student eTexts.

NOTE: There are **NO** changes to the content of the program, the only change is the removal of **ALL** references to the CCSS from the Teacher and Student eTexts to align with the print Student & Teacher's Editions in your classroom.

If you are using the online program in Pearson Realize, you can add the version that does not have the CCSS to your current Realize account. **OR**, you have the option of continuing to use the current online program with the CCSS eTexts.

IMPORTANT!
Please note that you cannot remove the existing Common Core program from your account. If you choose to add the new non-CCSS program to your Realize account, both programs will appear and there may be some content duplication for you and your students.

To Add the Non-CCSS Version "*Pearson Literature*" to Your Online Account, follow these three steps:

Step 1: Add New Program

From the Realize home screen, click on the person icon and select "**Settings**."

Click on the "**Programs**" tab, and you will see a list of available courses. Select your grade level in the "**Pearson Literature**" program, and click "**Save.**"

Adding *Pearson Literature* to Your Realize Account →

To confirm the program has been added, click on the **Realize** icon in the upper left corner to return to the home screen.

You should see the new program *"Pearson Literature Grade X." Pearson Literature* is now added to your programs.

Step 2:
Add Program to Class

Adjust Class Settings:

Now that you have added *Pearson Literature* to your Realize account, you need to add the program to your **existing classes** in order for students to have access.

IMPORTANT NOTE: Student accounts and classes **DO NOT** need to be re-created and this will **NOT** affect student data or any work that has already been completed online.

From the home screen, click on the "**Classes**" tab.

From the Classes page, select the class you want to add the new program to and click on "**Class settings**."

Step 3:
Save Program to Class

Assigning the Program to Your Classes:
Finally, add the program assigned to your classes.

In the **Edit Class Settings** page, select the grade level **Pearson Literature** course you want to add to the class.

Click "**Save Class**." Repeat Steps 2 & 3 for all your classes as needed.

ALWAYS LEARNING
